Roll Witchu

spoken bridge:

roll it, stop

roll it, stop

roll it and drop

baby now rock it with me

oh baby, oh baby pop

follow my directions

you will be okay

roll with it roll with it stop

when you do it right

you'll see it on my face

gotta

1 let it drop

2 make it hot

3 don't you stop

'till you hit that spot tonight

let's go on let it rock

ready or not

come on baby ride on it

come on lay that vibe on it

chorus:

can i just roll withchu

out on the floor witchu

oh the sexy way you move

layin' it down

takin' it slow witchu

like when the flow is smooth

keepin' it inside the mood

layin' it down

love everything you do

wanna do it all night witchu

and truly go home with you

layin' it down

can i just roll withchu

out on the floor witchu

oh the sexy way you move

layin' it down

roll baby, roll with it drop
that extra little thing that you do
it drives me crazy
now roll with it, roll baby drop
doing different moves that keep driving me insane
close in 4 let it rock
5 on top
6 don't you stop
'till you hit the spot tonight
let's go and let it rock
ready or not
come on baby, ride on it
come on lay that vibe on it

chorus

spoken bridge

anytime we're dancin'
ain't no holdin' back
our bodies start to react
just let go and be free (i get the feelin)
when you're dancing close to me (keeping the rhythm)
i feel you all over me
you make me feel so right
when you're holding me tight
roll with it, wanna roll witchu
baby tonight

i wanna roll witchu
dance slow witchu
i wanna roll witchu
get low witchu
baby

chorus
