Tonight, the times get darker than ever
I need someone. Care to help me?
I'm cold and lonely.
There's no one else around.
So we shut the door and head for the music.
Everyone's there but no one's moving.
Hold me like there's nothing you want more!

I feel broken. It's all over! I'm not alright!
I don't feel fine!
Hope she's viewing what we're doing!
I'm not alright! I don't feel fine!
I feel broken! I feel so broken!

I lost my grip I'm down on the dance floor!
So come on now baby hold me closer!
I am at your feet. At least for now
So let us charge up so we won't regret it
Stay with me! let's stay together!
Would you count my steps
If I would walk away

I feel broken. It's all over! I'm not alright!
I don't feel fine!
Hope she's viewing what we're doing!
I'm not alright! I don't feel fine!

So come on! Stick with me! So come on!
Stick with me!
So come on

I feel broken. It's all over! I'm not alright!
I don't feel fine!
Hope she's viewing what we're doing!
I'm not alright! I don't feel fine!
Anymore
