You ask me why my eyes hold tears  
So I try to make it very clear  
That you are all I've hoped for all my life

So hear my words and sing with me  
And swear that things will always be  
This great and someday you'll be my wife...

You run with me!  
You're one with me!  
Tonight the stars will shine  
Upon our hearts! yeah

Cause, I want you!  
I really want you! I want you!

And even when I'm down and out  
A silver lining of those clouds  
Is what you will always be for me  
So let's sustain this precious gift  
And don't ever let go of it  
Forever by your side is where I'll be

You run with me!  
You're one with me!  
Tonight the stars will shine  
Upon our hearts! yeah

Cause, I want you!  
I really want you! I want you!  
Now let's drive all night let's not go home  
'till darkness lifts not be alone  
I want you

I want you, I need you  
I can't live without you  
I swear to you one thousand times, I'd even  
Swear one million times that I want you
