Another hour and the sun will fade
Stormy weather but we
Go!

Just another rainy saturday
Touching bumpers on the motorway!
Going nowhere fast!
Seems like nothing I would rather do
Is be with you! yeah!
I don't care if this all we do!
The speakers pumping sonic youth
Just me and you and our friend goo

Yeah!

I believe! I'm telling you it 'll never last
As a friend, it 'll never last!

All our friends say that we're terrible yeah!
You make us sick!
They all say we're just unbearable
The speakers pumping husker du
Singing all of this I've done for you

Yeah!

I believe! I'm telling you it 'll never last
As a friend, it 'll never last!

Do you, do you, do you believe in me?
I believe! I'm telling you it'll never last
As a friend, It'll never last!
Oh yeah, we're having so much fun
They're playing janie's got a gun...
I'm telling you it will never last
