Go ahead! point your finger at me!
And let this last forever!
Yeah! point at me when you're talking about
Life could not get better!

Now let's leave this town,
Let's leave this state, forget about
All the cold street lights and endless roads,
Let's raise the gates!
Let's raise the gates!

I can't live without you baby!
I can't live without you now
I'm sick of all that wasted time!
For all my life I've waited around
I can't live without you now

Kill the voices that burn within!
Kill them all and let me in!
Bloodshot eyes dress this night...
And I'll ask
Do you well do you well do you feel the same

Now it's you and me, us versus them,
If we believe,
Play our cards just right,
We'll have 'em down, down on their knees,
On their knees...

I can't live without you baby!
I can't live without you now
I'm sick of all that wasted time!
For all my life I've waited around
I can't live without you now

So hold my hand, don't let me go
So hold my hand, don't let me go 'cause

I can't live without you baby!
I can't live without you now
I'm sick of all that wasted time!
For all my life I've waited around

I can't live without you now
