We finished our own lives  
Now we finished off the wine  
Now we're used to staying up all night  
Two hearts beating oh yeah, oh yeah

Well you can keep tomorrow  
after tonight we're not gonna need it  
Be there  
Be down  
Background, we're too drunk to feel it

Ooh  
We used to dream  
Now we worry about dying

I don't wanna worry about dying  
I just wanna worry about those sunshine girls

Young hearts spark fire  
All night oh yeah, oh yeah

Well you can keep tomorrow  
After tonight we're not gonna need it  
Be there  
Be down  
Background, we're too drunk to feel it

Ooh  
We used to dream  
Now we worry about dying

I don't wanna worry about dying  
I just wanna worry about sunshine girls
