Goodbye

A word that makes me cry

All the joy and all the fun

Are suddenly gone

Goodbye

I can feel the cold steel on my shaking skin

I stand alone with my thoughts

On a crossway to nowhere

Every end shows your tender face

I stand alone with my thoughts

On a crossway to nowhere

Every end shows your tender face

A long kiss goodbye

In my head the distance rise

This sheer endless time of despair

Goodbye

I can feel the cold steel on my shaking skin

A long kiss goodbye

I can feel the cold steel on my shaking skin

A long kiss goodbye

I stand alone with my thoughts

On a crossway to nowhere

Every end shows your tender face

A long kiss goodbye

My tears flow over

The time just fans the fire

The time just fans the fire

Why can't you stay forever?

Why can't you just pull the trigger?

I wish, I wish this nightmare would end

Goodbye

I can feel the cold steel on my shaking skin

A long kiss goodbye

I can feel the cold steel on my shaking skin

A long kiss goodbye

Goodbye

I stand alone with my thoughts  
On a crossway to nowhere  
Every end shows your tender face
