I would like to see  
What becomes of me  
A reason, a failure, displaced it be

I would like to know  
When he will drown  
Connected, convicted, technology

Green turns into grey\*  
But way too slow  
Progression, depression, we suffocate  
The lyin' and all the cryin'  
Decision, depression, communicate

[Chorus:]  
The rest is not real, but that is a lie  
Beneath me I see the falling sky

I shut my eyes to see better times  
All for, trust more, but in vain  
I saw the madness, our weakness  
Destruction, corruption, no wonder I'm insane

[Chorus 2x]  
When I look around  
When I try to remember  
When I look around to a better time

When I look around  
When I try to remember  
When I look around, I start to dream

Tell me what you think  
Tell me, am I sick?  
Desperation, termination, rebuilt  
Goodbye my dear  
Defeated, deleted, it was a guilt
