### "We Are The Many"

Visit "[We Are The Many](#)" on [MotoLyrics.com](http://MotoLyrics.com)

You've gotta be f\*cking kidding me (kidding me)

We are, we are, one voice - one heart!

We are, we are, one voice - one heart!

You sound like a broken record,  
Different words for the same old lies  
You know we'll be the ones who suffer,  
You gain power while we pay the price  
Every time you open your mouth,  
You spread a disease  
You try to make us voiceless,  
You try to make us believe

We are the many,  
Like drops of water,  
Alone we are nothing,  
Together we are crushing  
We are the many,  
Like a plague of locusts,  
Alone we are nothing,  
Together we are crushing

We are the many!  
Alone we are nothing,  
Together we are crushing  
We are the many!  
Alone we are nothing,  
Together we are crushing  
We are, we are one, voice - one heart!

Any disaster is very welcome  
In the darkest days  
You promise the sun  
Like the savior of a world in debris?  
Yeah right,  
You've gotta be f\*cking kidding me (kidding me)  
You've gotta be f\*cking kidding me  
You've gotta be f\*cking kidding me

We are the many,

Like a plague of locusts,  
Alone we are nothing,  
Together we are crushing  
We are the many,  
Like a plague of locusts,  
Alone we are nothing,  
Together we are crushing

We are the many!  
Alone we are nothing,  
Together we are crushing  
We are the many!  
Alone we are nothing,  
Together we are crushing  
We are, we are one, voice - one heart!

One voice - one heart!

You've gotta be f\*cking kidding me  
You've gotta be f\*cking kidding me  
You've gotta be f\*cking kidding me  
You've gotta be f\*cking kidding me

One voice - one heart!

We are the many,  
Like drops of water,  
Alone we are nothing,  
Together we are crushing  
We are the many,  
Like a plague of locusts,  
Alone we are nothing,  
Together we are crushing

We are the many,  
Alone we are nothing,  
Together we are crushing  
We are the many,  
Alone we are nothing,  
Together we are crushing

We are, we are, one voice - one heart!  
One voice - one heart!  
One voice - one heart!
