Hooo

O yea yea yea yea

When u smile  
My life becomes a ray of light  
Sing me a lullaby  
To sleep at midnight

I'll be hypnotized  
when looked into your eyes  
Turn off the room light  
Let's Spend the night

Chorus  
Take me to far away  
Away to your secret place  
Take my tears my fears  
Take all my pain for which I'll repay  
Someday with a kiss and say  
Can't believe that I'm in love  
In love again

When the stars don't shine  
And when the birds don't fly  
And when the flowers cry  
And when the rain runs dry  
When the violet's red and when the rose turn blue  
Baby I'll still be in love with u

Chorus X2
