"Long Distance"

(A)

when i'm feeling blue
lost without a clue
sparks between our eyes
nothing can be as true
sing my life for you
paintings that i drew
one plus one makes two
how i wish to caress you

(B)

tell me where we're heading to
what we do may seem so crude
where's the "good" in our goodbyes
the time you leave is the time you break my heart in two

(C)

even though we're far apart
send my love with all my heart
when you miss me at night
look at the stars shining bright

(D)

for the time you pulled me through
all the things i do for you
running tears from my eyes
thinking how will i survive next goodbye

Repeat (A) (B) (C) (D)
