When I'm feeling blue  
Lost without a clue  
Sparks between our eyes  
Nothing can be as true

Sing my life for you  
Paintings that I drew  
One plus one makes two  
How I wish to caress you

Tell me where we heading to  
What we do may seem so crude  
Where's the "good" in our goodbyes  
The time you leave is the time  
You break my heart in two

[Chorus:]  
Even though we're far apart  
Send my love with all my heart  
When you miss me at night  
Look at the stars shining bright  
For the times you pushed me through  
All the things I do for you  
Running tears from my eyes  
Thinking how will I survive  
Next goodbye

(Repeat from top)

(Chorus x2)

Ooooooooooh  
Goodbye...
