

Janie Fricke "Let's Stop Talkin' About It"

Visit "[Let's Stop Talkin' About It](#)" on [MotoLyrics.com](#)

We've had a lot of conversations
We've analyzed our situation
There's only so much that words can say
After awhile they just get in the way

So let's stop talking about it
And start getting down to love
Let's stop talking about it
We've already said enough

Can't we stop talking about it
I can't take any more
I'm ready, yes I'm ready
So what are we waiting for

We covered all there is to cover
It's clear that we're wanting one another
Well, let's give our feelings a chance to be heard
A moment of passion's worth a thousand words

So let's stop talking about it
And start getting down to love
Let's stop talking about it
We've already said enough

Can't we stop talking about it
I can't take any more
I'm ready, yes I'm ready
So what are we waiting for

Let's stop talking about it
And start getting down to love
Let's stop talking about it
We've already said enough

Can't we stop talking about it
I can't take any more
I'm ready, yes I'm ready
So what are we waiting for
