(Tom Russell - Katy Moffatt)

The lights of the town are just shuttin' down
The sun was fresh on the rise
I met mama at the door she'd been walkin' the floor
She said girl you got stars in your eyes.

Mama, I was walking on the moon last night
Two loving arms held me tight
As the stars danced around so bright
I was walking on the moon last night.

Mama said to me girl you been walking in your sleep
You can't keep your feet on the ground
Now it's not what it seems young love may be a dream
Some angels fly high just to fall down.

Mama, I was walking on the moon last night
Two loving arms held me tight
As the stars danced around so bright
I was walking on the moon last night.

--- Instrumental ---

Now the lights of the town are glowing yellow brown
The moon's beginning to rise
I left mama at the door I said don't worry anymore
I've seen daddy put those same stars in your eyes.

Mama, I'll be walking on the moon tonight
Two loving arms to hold me tight
As the stars dance around so bright
I'll be walking on the moon tonight.

Mama, I'll be walking on the moon tonight
Yes, I'll be walking on the moon tonight...
