The nights the sky was filled with clouds
My worried mind was filled with fears
I couldn't count all the lonely hours
Spent with memories and tears

I never thought I would see the day
When I could throw all my sorrow away
But then you came and you showed me the way
You have made all those times disappear

You changed my life in a moment
And I'll never be the same again
You changed my life in a moment
And it's hard for me to understand
With a touch of your hand
In a moment of time
All my sorrow is gone

I never thought that I could change
Could change so much in so many ways
I'm still surprised when I look in my mirror
To see that I still look the same

You changed my life in a moment
And I'll never be the same again
You changed my life in a moment
And it's hard for me to understand
With a touch of your hand
In a moment of time
All my sorrow is gone

You changed my life
I'll never be the same

You changed my life in a moment
And it's hard for me to understand
With a touch of your hand
In a moment of time
All my sorrow is gone
