Play it low in the pocket  
Something's just gotta break  
You've been waiting so long for success  
It's a shame it's gonna come too late

Baby, fly like a rocket  
Shoot it out in stages from the mother ship  
It's too bad you gotta lose what you had  
And when you cruise  
You gotta shoot it from the hip  
Or you give 'em all the slip

And it's too bad  
Hear they got you shootin' with a crooked cue  
Hmm, somebody really got it in for you  
When the night runs down all over town  
And everybody's lost control  
Get ready to roll  
Get ready to roll

Play it high on the hip  
Something's just got to give  
Hold that .38 ready 'til she really looks steady  
Then just let her rip

Put some powder in your eyes  
Just before that contact's made  
How it must hurt to pervert  
What the curtain can't hide  
From that fire in your eyes  
But is it really a surprise?

And it's too bad  
Hear they got you shootin' with a crooked cue  
Hmm, somebody really got it in for you  
When the night runs down all over town  
And everybody's lost control  
Get ready to roll  
Get ready to roll
