i am nothing special but to her maybe im not another guy i should tell her just the way i feel but i dunno what i would say my heart don't work that way

if she tells me
im not the one shes looking for
then ill turn and walk away
but if she tells me
that shes been waiting all along
but i havn't said a word to her before

im all out of funny things to say to keep a smile upon your face i wish i could see you now and then and talk to you more as a friend if i don't blow it again

if she tells me im not the one shes looking for then ill turn and walk away but if she tells me that shes been waiting all along but i havn't said a word to her before

tell me what to do on my knees someone please help me well its alright if i aint got a clue
