I take off, I touch down, I set sail, I run aground
I have one more for the road
It's the only thing that's keeping me afloat

I'm always gone, I'm never here
Sometimes I want to disappear with you
I'm choking on the atmosphere
Cause all I want to be is near to you

I lay down, I wake up, fill another plastic cup
I watch the news to fall asleep
It's the only place I keep you
I wanna keep you here with me

I'm sick and tired of moving round
I wonder if I'm losing ground with you
Afraid this love might dislocate
If I can't go, If I can't stay with you

I would give it all away

I'm sick and tired of moving round
I'm not ashore, I'm out of town
I'm lonely when I'm not alone
Cause I'm out here and you're my home
Yeah, you!
Yeah, you!
Yeah, you!
Yeah, you!

I take off, I touch down, I set sail
I run aground.
