Chose this way  
Made out of hope and memories  
I thought it would make me safe  
But still I find myself hanging here  
Helpless from the edges of your will

Would like to get through to you - and me

The spies are all out tonight  
Like brushes we paint our hopeful ways  
Would like to get through to you - and me  
Crawling back ain't usual to me  
But I would like to see me stay - tonight

Lost in your pictures of the perfect man  
What would become if I decided to stay?  
Looking for a clue to show the way  
But your curtains steals my light

Would like to get through to you - and me  
The spies are all out tonight  
Like brushes we paint our hopeful ways  
Would like to get through to you - and me  
Crawling back ain't usual to me  
But I just know we are meant to be.
