stayin in a hotel not far from here  
sittin in the lobby  
when anhills in my ear  
i turned to look  
i see a gun pointed at my head  
hes cussin and hes cryin  
and i think he wants me dead  
so whats the meaning of this,  
why did he threaten me  
this way he said  
"you were sleeping with my wife and now your gonna  
pay"

What have i done?  
must have thought i was someone else.  
what did i do?  
i dont think that i know you.  
its a coincidence.  
i was in the wrong place at the wrong time?  
i dont know your wife  
and i sure dont wanna die.

well now shut up.  
cuz i know your lying  
your the one she pointed out.  
right before i shot her  
so i know without a doubt.  
im innocent  
i have a girl not even from this town.  
you call my wife a liar?  
now your really going down.  
he took me from the crowd  
and made me get on my knees.  
put the barrel to my head  
as i begged him  
"no please"

What have i done?  
must have thought i was someone else.  
what did i do?  
i dont think that i know you.  
its a coincidence.

was in in the wrong place at the wrong time?  
but now im dead so never mind.

well everybody dies  
im no exception to the rule.  
but it wasnt my time to go,  
my life was taken by a fool.  
he listened to his cheating wife,  
his ruler got away  
security couldnt save me  
and so now i had to pay.  
im bleeding on the floor.  
hes bleeding on the floor.  
im bleeding on the floor.

What have i done?  
must have thought i was someone else.  
what did i do?  
i dont think that i know you.  
its a coincidence.  
was in in the wrong place at the wrong time?  
but now im dead so never mind
