

Calibretto 13 "Hollywood"

Visit "[Hollywood](#)" on MotoLyrics.com

Hollywood's been trying to make new friends with the
aliens
By sending them our culture and our ways of life and
all of our trends
Transmitting music and TV shows and all the cool
clothes
Hoping for approval from the aliens but nobody knows
Oh, they're sick of our movies
Oh, They're sick of our lies
Oh, They're coming to see us
Baby get ready for a big surprise
Oh, They're bringing their weapons
Oh, They're going to shove us around
Oh, The robots are coming to bomb the city, destroy the
town
Hollywood is burning down
