Remember when we used to get Chinese
Or would you please just hear me out
For a moment before I eat my tounge it all goes wrong
I know it wasn't your fault when your bowling ball
smashed in my head
Cause accidents they happen and I'm still alive though I
should be dead
I come to you tonight not to scare you or to give you
fright
But to make sure that we're still an item and possible
spend the night
Perhaps you sure you wern't sleeping in gives me a
feeling deep within
I just come up from the ground if we fooled around
would it be sin

But wait, you know it almost seems that your not happy
to see me
My love that's brought me back to you so please tell me
that you've been true
It seems that I've been gone so long my dear my love
for you is strong
Death can't keep me away from you in your hands my
heart belongs

And I can see that you don't see the sparkle on my face
And I notice that you don't notice that my heart is still in
place
So you're upset and you're crying and you're walking
out the door
And I'm fine that you don't like me anymore

Now days have passed and so am I, no matter how I try
and try
I just can't seem to win you back, maybe it's because
lack of hair
It's been falling out, I just can't get rid of this smell
No more hours of making out, why couldn't I've just
have gone to Hell
Sex used to be so good and so was hanging out
Now your obviously sickened by me and I'm starting to
doubt your love is true

Even though I'm dead I missed you every day
But my skin is rotting off my body I'm starting to decay

And I can see that you don't see the sparkle on my face
And I notice that you notice that my heart is out of place
So you're upset and you're crying and you're walking
out the door
And I'm fine that you don't like me anymore

I'm giving you just one more chance to change you
mind and take this dance
I wanna be the dead loves slave, that's why I've risen
from the grave
So take me as I am but if you don't I understand
But know this hasen't been in vain cause
I COULD ALWAYS EAT YOUR BRAIN!

I could always eat you brain!
I could always eat you brain!
I could always eat you brain!
I could always eat you brain!

I could always eat you brain!
You could always eat my brain!
I could always eat you brain!
You could always eat my brain!
I could always eat you brain!
You could always eat my brain!
I could always eat you brain!

(Then some gibberish and noise)
