Sleep around with Kristi
And get some weird disease.
Then move on to Jamie
And give it, if you please.
Forgot to wear a condom
When you were with Louise.
Now you know that she's got
She's got that weird disease, yeah.
Sleep around, sleep around,
Do you even care?
Get it here, give it there.
You sure do like to share.
Sleep around, sleep around,
Do you sleep and tell?
Control those horny hormones
Or die and go to hell.
Yeah...
After Louise came Elenore,
And after her came many more.
What do you think God is saying
When he sees you and his daughters playing?
All I know is that if I were the boss,
I'd send you to hell, you wouldn't be a loss.
But Jesus Christ is more forgiving than me,
He gives you a chance to set yourself free, indeed.
Sleep around, sleep around,
Do you even care?
Get it here, give it there.
You sure do like to share.
Sleep around, sleep around,
Do you sleep and tell?
Control those horny hormones
Or die and go to hell.
Sleep around, sleep around,
You're throwing your life away.
You're doin' those girls and gettin' some thrills,
But one day you're gonna pay.
Yeah...
