the world is evil, we're all goin to hell
my glass is half empty I don't feel so well
a pessimist from the very start
negative emotions fill my heart

but when I see your pretty face
it's hard to hate the human race
just whisper softly in my ear
I love you more with each passing year

I wanna go to mexico
when I think about you (when I think about you)
when I think about you (when I think about you)
when I think about you (when I think about you)
I remember the good times that we've had
when I think about you (when I think about you)
when I think about you (when I think about you)
when I think about you (when I think about you)
you know my world don't seem so bad

the world is evil, we're all goin to hell
my glass is half empty I don't feel so well
a pessimist from the very start
negative emotions fill my heart

but when I see your pretty face
it's hard to hate the human race
just whisper softly in my ear
I love you more with each passing year

I wanna go to mexico
when I think about you (when I think about you)
when I think about you (when I think about you)
when I think about you (when I think about you)
I remember the good times that we've had
when I think about you (when I think about you)
when I think about you (when I think about you)
when I think about you, girl (when I think about you)
you know my world don't seem so bad

you know girl
sometimes I wonder, when the world is like a monster

it swallows me up and it makes me do things I don't
wanna do
ah you can still love me, even though I'm inside a
monster
I cuss and I scream and the only thing that can calm
me down is you

sometimes I wonder, when the world is like a monster
it swallows me up and it makes me do things I don't
wanna do
ah you can still love me, even though I'm inside a
monster
I cuss and I scream and the only thing that can calm
me down is you

when I see your pretty face
it's hard to hate the human race
just whisper softly in my ear
I love you more with each passing year

I wanna go to mexico
I wanna go to mexico
I wanna go to mexico
when I think about you (when I think about you)
when I think about you (when I think about you)
when I think about you (when I think about you)
when I think about you (when I think about you)
let's go!
