Here lies the waste of  
All of your crimes  
All that should lie  
Buried now.

Alone and useless  
Killing your voice  
Watching your time  
Time closing down.

Carry the weight  
Of the burn of your change  
Carries the weight of you

Stay down  
Play dead  
The more you move your neck  
The more it steals your air.

You're in above your head.

Stay down  
Play dead  
Caught in your own device  
Stealing your own design

You're in over your head  
(Over your head)x3

Caught in the shoals  
Of the riverine calls  
Where the snake lies  
Over you

Carry the weight  
Of the burn of your change  
Carries the weight of you

Stay down  
Play dead  
The more you move your neck

The more it steals your air.

You're in above your head.

Stay down  
Play dead  
Caught in your own device  
Stealing your own design

You're in above your head  
You're caught in this lie,  
Losing air  
(Over your head)x3

Sit right  
Sit still  
Changing your mind

Sit calm  
It comes  
Burning your eyes.

Sit right  
Sit still  
Changing your mind

Sit calm  
It comes  
Burning your eyes.

Stay down  
Play dead  
The more you move your neck  
The more it steals your air.

Stay down  
Play dead  
Caught in your own device  
Stealing your own design

You're in above your head  
You're caught in this lie,  
Losing air
