Everybody tells me I'm much too intense  
I should take some time to get to know all my friends  
They tell me I'm crazy, a moonlighting fool  
But I'm working for you, workin' for you

Jack happer, bustin' rock  
Double duty, I can't stop  
I work hard, I work late  
Push, just like a galley slave  
But every night  
She treats me right  
It's so amazing when she holds me tight

Sweat, buckle down  
Back break, pressure's on  
Push my body to the bone  
I'm in the workin' zone  
But it feels so fine  
Just to know she's mine

(chorus)  
Push, pump, sweat it out  
You know I'm talkin' about  
Workin' for my baby  
I got a real good woman, she's dynamite  
She knows how to treat me right  
Workin' for my baby

I'm stretchin' every muscle  
Straining every nerve  
But I won't break, I won't crumble  
I'm workin' for my girl  
And it feels so fine  
Just to know she's mine

Chorus
