I care
You're the one I wrap my soul in
I swear
You're a tenderness worth holdin
Some nights
Are much too warm to say goodbye in
Your eyes
I can't stand to watch them cryin
Oh no
I'd never leave you that way
Hold on
I'm just a breath away
When you need me...
(chorus)
You light a candle in your heart
Send it like a telegraph

Across the world
And when I close my eyes
I'll see it shine
If you wonder just how true love can be
Light a candle in your heart for me
Pure gold
Like the love that you awaken
Unfolds
Like a summer morning breaking
Oh no
I'll never leave you that way
Hold on
I'm just a breath away
Chorus
