Your skin, a white stained sensation
Clinical bodies won't do
And as we're pumping, pumping and resisting
Inserting love into you

Communist China, take me to heaven

Oblique horizons won't do
The knife in your fist is breaking up the white walls
Here's penetration for you

Communist China, take me to heaven

Impersonations won't do

Communist China, take me to heaven
Somebody wrong
We'll throw glass in your face
Call it new propaganda
We've been waiting for
