We used to go out
Get drunk and get sad
Good friends but this town
And this scene has gone bad

We kept waiting, but still nothing changes
It's a shame
Tired old youth burnt right out
We kept waiting, but still nothing changes
It's a shame

All those past dues
All those bad moods
All those half truths
All those sad tunes
You wrote while you wasted away

Your big break was what you wanted
A little change was all you needed
Your big break was what you wanted
It's a shame

We kept waiting, but still nothing changes
It's a shame
Tired old youth burnt right out
We kept waiting, but still nothing changes
It's a shame
