Forget the rushing
Forget the weather
We'll turn our christian names together
Write all our friends back home

We'll leave tonight and we'll leave together
Whey'll say that ain't right and I'll say whatever
Leave all our friends back home

No talk of sons and all talk of daughters
We'll find a little place by the water
We'll leave all our friends back home

I'll do the talking, you'll write the letters
I'll sing the beatles and you'll sing them better
Forget all our friends back home

It's raining in Vancouver
But I don't give a fuck
Cuz I'm far from home tonight
It's raining in Vancouver
But I don't give a fuck
Cuz I'm in love with you tonight
