You take more then you give
It makes me want to cry
And I won't ask you why
So many times I've tried
Confusion is this real
I feel like I will die

Please believe me
I'm falling as fast as I can
To you
I'll keep on waiting
I'm holding is all that I do
For you

And I have passed you by
It hurt so much inside
The promises we make
Are broken and we find

Please believe me
I'm falling as fast as I can
To you
I'll keep on waiting
I'm holding is all I can do
For you

Holding is all that I do
Holding is all I can do

Please believe me
I'm falling as fast as I can
To you
I'll keep on waiting
I'm holding is all I can do
I'm falling is fast as I can
To you
