Waste away with me
From the other side
Will I find

Imagination sets in
Where did I go wrong
Where did I

What I felt when you're gone
You left me strung out on my own
I thought you'd stay right here with me
The sadness stains nothings changed
For me it's still the same
Thought you'd stay right here beside me
Suddenly you're gone

Pushing forward strengthens
Strength is all I need
All I need

The promises are broken
Sadness spilling free
It's killing me

What I felt when you're gone
You left me strung out on my own
I thought you'd stay right here with me
The sadness stains nothings changed
For me it's still the same
Thought you'd stay right here beside me
But suddenly you're gone

Taken over me
Please don't let it be
I want you to stay

What I felt when you're gone
You left me strung out on my own
I thought you'd stay right here with me

The sadness stains nothings changed
For me it's still the same

Thought you'd stay right here with me
What I felt when you're gone
You left me strung out on my own
I thought you'd stay right here with me
I never thought I'd lose you
I thought you'd stay right here with me
I never thought I'd lose you
I thought you'd stay right here beside me
Suddenly you're gone
