## "Just Say Goodbye"

Visit "[Just Say Goodbye](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Remember when we first met  
We first sat we spent our time together  
Till everyone had gone

Now and then I pass you by  
There are so many things that I could tell you  
That no one else would know

Come on now please just answer  
I need it more than ever  
You were the one to put the pieces in my life  
It's easy to leave with goodbye  
Then be left behind

Will you find out who I am  
What I've done who have I become  
Take me back to where I'm from

Come on now please just answer  
I need it more than ever  
You were the one to put the pieces in my life  
It's easy to leave with goodbye  
Then be left behind

Come on now  
I need it more than ever  
Come on now  
I need it more  
It's easy to leave with goodbye  
Then be left behind  
It's easy to leave with goodbye  
It's easy to just say goodbye  
Then be left behind
