

Japunga "The Theory Of My Life"

Visit "[The Theory Of My Life](#)" on MotoLyrics.com

Fading from me I can't see
A distant hum is all I hear
If I find my way home
I can't see I am blind

We stand we've taken it all
It never made no sense
Sometimes that we fall
It only builds my strength
Everything I've ever done I've faced
The theory of my life

As my dreams I have seen
Amazing faces make it real
With a smile I will leave
Everything was meant to be

We stand we've taken it all
It never made no sense
Sometimes that we fall
It only builds my strength
Everything I've ever done I've faced
The theory of my life

We stand we've taken it all
It never made no sense
Sometimes that we fall
It only builds my strength
Everything I've ever done I've faced
The theory of my life
