If anyway you wanted to be
I would try my best to make it
But if I try it and never succeed
Still I know I gave one hundred percent
But here I am down on my knees
and I'm begging please
Don't hang me up

See I just want to talk to you right now
See I know we can make it through some how
If you stay on the line than
Everything is gonna be fine

I just want to reach right through the phone
With my hands and hold you close to me
So we can just pretend
We'll stay here for the rest of our lives, yeah
And we'll grow old, just holding each other
So baby just hold
See I just want to talk to you right now
See I know we can make it through some how
If you stay on the line than
Everything is gonna be fine

If you stay on the line than
Everything is gonna be fine.

I can feel your breath on me
From miles away
I've never felt a greater relief
From anything
And knowing you are here with me, girl
It's the greatest thing yeah, it's the greatest thing

See I just want to talk to you right now
See I know we can make it through some how
If you stay on the line than
Everything is gonna be fine
