You want to leave
You want to find yourself
But you don' want to do that with me
You want to drive
You want to feel the breeze
Between your fingers and the trees
And you don' know where you're going
You get in the car and you hit the road

And though I still love you
I want you to know
I hope you hit traffic
The magic gets lost and the wind sits still
I hope it's a static erratic drive
And you're slamming on the wheel
You get angry and graphic
And I hope you hit traffic

You want to fly
You want to spread your wings
And you got a hundred more clichÃ©s
You think the road holds the truth
And no ones gunna get in your way
And you don' care where you're going
You let the car decide when you hit the road

Though I still love you
I want you to know
I hope you hit traffic
The magic gets lost and the wind sits still
I hope it's a static erratic drive
And you're slamming on the wheel
You get angry and graphic
And I hope you hit traffic

You turn the radio up loud
But no station is clear
Then a crackle from a cloud
And the rain is soon here
Could the car break down?
Could it be a sign?
I wish you would, I really think you should

But if you can' be mine

I hope you hit traffic
The magic is lost and the wind sits still
And I hope it's a static erratic drive
And you're slamming on the wheel

Na na na na na na na na na na na
Na na na na na na na na na na na
Na na na na na na na na na na na

I hope you hit traffic
The magic is lost and the wind sits still
And I hope it's a static erratic drive
And you're slamming on the wheel
You get angry and graphic
And I hope you hit traffic
