My eyes are fixed like headlights
Following you down your road.
East to west, north or south
I'll keep you company wherever you go
And love you like there's no way out,
Love you like there's no way out.

Wake up looking like your aunt is Norma Jean
With a trail of broken hearts cast about
I'm gonna wreck you with the strength of Steve
McQueen
And love you like there's no way out,
Love you like there's no way out,
Love you like there's no way out.

Now there's no way
I'm ever gonna leave you.
Now there's no way
I'm ever gonna leave you.
Now there's no way
I'm ever gonna leave you.
There's no way out.

I'll lay my past out with the trash on the curb
And I will place your doubts in doubt
I'll forever be your flightless bird
Love you like there's no way out,
Love you like there's no way out,
Love you like there's no way out,
Love you like there's no way out.
