[verse]

If you put your arms around me
Could it change the way I feel
I guess I let myself believe
That the outside might just
Bleed it's way in
Maybe stir the sleeping past
Lying under glass
Waiting for the kiss
That breaks this awful spell
Pull me out...of this lonely cell

[chorus]

Close my eyes and hold my heart
Cover me and make me something
Change this something normal
Into something beautiful

[verse]

What I get from my reflection
Isn't what I thought I'd see
Give me reason to believe
Never leave me incomplete

Will you untie this loss of mine
It so easily defines me
Do you see it on my face?
And all I can think about
Is how long
I've been waiting to feel you move me

[chorus]

Into something beautiful
Into something beautiful

[bridge]

And I'm still fighting for the
Word to break these chains
And I still pray when I look
In your eyes, you'll stare right
Back down into something beautiful

[chorus]

Into something beautiful

Into something beautiful

Into something beautiful
