Not thought that I'd ever be stuck in this position  
Got hoes in my chest on my heart has gone missin  
That story to tell baby you'd better listen  
I'll explain what is... call up give me back...  
Got a question for you babe...  
Why even got the time say you write this song  
Explain give me a reason but I still not believing  
'Cause affection speak louder than words  
Baby you're screaming

Chorus:

Help me, help me from when I'm to coming  
... alone  
But you gotta help me help you  
And everything that I can do I gotta leave it alone  
Moving on gotta go and let my heart... no more  
And every... your body is... no

How can you not love yourself  
But is spend love for someone else  
How can you feel being alone  
... goes wrong  
Hey you want it that... and I got it  
You want it that... and I got it... on shopping  
I can't do everything, every time you mess the door

And you aint' got nothing let em...  
She left me and... down on...  
And how so simple ha ha ha  
Turn into the lights to me  
Oh when you leave this what the...  
I had to leave till the day...

[Chorus:]

How can you not love yourself  
But is spend love for someone else  
How can you feel being alone  
... goes wrong

Who would have knew what begin so sweet

The time... now I can't sleep  
Now I can't hear... memories  
... my face... always I'm prayin... be  
... don't need wont' be so now I'm...  
I won't settle no more next one  
On the pedestal  
You had your chance you gotta go  
So help as out of control

[Chorus:]

How can you not love yourself  
But is spend love for someone else  
How can you feel being alone  
... goes wrong
