Shouldnt mess with your boy
Ill take away your fears
Ill change your life by the end of this year
Baby, Ill upgrade you, I promise you, I swear
Anyway you wanna go, girl, Ill take you there

Cause I know you want me, girl
Because I want you, too
Acting like you dont see me here
But I sure as hell see you
Hit it with me cause Im most popular
Once together there aint no stopping us
If you didnt know, well then, now you know

Oh, I never met a girl that was so wild and up
Though I know you mightve met guys that were nice
before me
So what? Baby, I bet that they wont treat you better
Dont worry, Im through with the talking, girl
Now let me show you

I am, Im a good look, baby, baby
Im a, Im a good look, baby, baby
Im a, Im a good look, baby, baby
Im a, Im a good look, baby, baby

Baby dont act like you dont like what you see
I know you see all the benefits of being with me
Cause Im almost perfect, damn, its hard to believe
But right here baby is where you need to be

Cause I know you want me, girl
Because I want you, too
Acting like you dont see me here
But I sure as hell see you
Hit it with me cause Im most popular
Once together there aint no stopping us
If you didnt know, well then, now you know

Oh, I never met a girl that was so wild and up
Though I know you mightve met guys that were nice

before me
So what? Baby, I bet that they wont treat you better
You know what, Im through with the talking, girl
Now just let me show you

I am, Im a good look, baby, baby
Im a, Im a good look, baby, baby
Im a, Im a good look, baby, baby
Im a, Im a good look, baby, baby

Every time I step on the scene all the girls go insane
Let me know young Jamie, the girls them screaming,
yelling name
Now them all know that we are not the same
And Im a real good look thats why them girl cannot
complain
Ever since we got together told you it will never ever
And even if them other boy got cheddar
Being with me makes you look better
Them boys know that I was with you
Couldnt never ever catch you
And Im only here to let you know that I
Oh, I never met a girl that was so wild and up
Though I know you mightve met guys that were nice
before me
So what? Baby, I bet that they wont treat you better
You know what, Im through with the talking, girl
Now just let me show you

I am, Im a good look, baby, baby
Im a, Im a good look, baby, baby
Im a, Im a good look, baby, baby
Im a, Im a good look, baby, baby

I am, Im a good look, baby, baby
Im a, Im a good look, baby, baby
Im a, Im a good look, baby, baby
Im a, Im a good look, baby, baby
