This ain't what you want girl, what you want girl (x2)

This ain't what you want girl
I just wanna have a little fun girl
I can introduce you to my world girl

Tell me can you tell what you feel girl
But you gotta turn'em off click
And treat your feelings like a light switch
No they can't get involved here
Let me make it perfectly clear dear!

Keep you one honeyed
Hit the bed hop
But something ain't selling
Finish to the emesis
Is that me in your stomach?
I ain't with the front and
I know you want it bad as I do

You don't want it
One you get with me girl
You gonna start running
That's when you gonna see girl
This ain't what you wanted
This ain't what you wanted

I ain't no good to you baby
If I can't be true to you baby
This ain't what you want girl, what you want girl

This ain't what you want girl
Whatcha snooping through your girl phone for?
You told me you and ho was taking time off
Talking like you want it, nigger pop off
I pull up in the front door
Something you don't even need a key for
What you mad at me for?
I just wanna take you on a detour

Keep you one honeyed

Hit the bed hop
But something ain't selling
Finish to the emesis
Is that me in your stomach?
I ain't with the front and
I know you want it bad as I do

You don't want it
One you get with me girl
You gonna start running
That's when you gonna see girl
This ain't what you wanted
This ain't what you want girl, what you want girl
This ain't what you wanted

I ain't no good to you baby
If I can't be true to you baby
This ain't what you want girl, what you want girl
This ain't what you want, you want girl

Na, na ,na,na,na,na
I want no baby
Na, na ,na,na,na,na
You ain't got that babe
Imma put a hurt on that body if I've got the chance
You gonna have the time of your life
Girl trust me you don't want it

One you get with me girl
You gonna start running
That's when you gonna see girl
This ain't what you wanted
This ain't what you want girl, what you want girl
This ain't what you wanted

I ain't no good to you baby
If I can't be true to you baby
This ain't what you want girl, what you want girl
This ain't what you want, you want girl
