It's not a game but I don't wanna lose
Don't make me choose between
Success and shit that's fresh
'Cause I will always choose my own happiness

No, you don't know me, we ain't never met
I'm not from your town, never seen me around
'Cause where I'm from, we still havin' from
And now the kingdom's come
You're done and I am the royal son

I'm not shy, forgive me
So please don't cry
Forgive me if you can't handle this
Forgive me, forgive me, forgive me

And if it's too raw, forgive me
That's my faux faux
Forgive me if you can't handle this
Forgive me, forgive me, forgive me

Music, father forgive me, I'm smokin' like a chimney
Up inside the studio with Jarvis here with me
They call we da underdogs, we da comin' runnin' under
y'all
We no come fi talk, gun fi bark under unu bumba-
claught

Tell a guy fuck-off, we run the park
Sing from the heart, king from the start
Jelly one, tell you what, bling down the chart
Bling down the rass, big sound a blast

Money ching-ching every big town we pass
Find a slim ting, run ring 'round she ass
Only grim ting is a rign now she want

I'm not shy, forgive me
So please don't cry
Forgive me if you can't handle this
Forgive me, forgive me, forgive me

And if it's too raw, forgive me
That's my faux faux
Forgive me if you can't handle this
Forgive me, forgive me, forgive me

No, this one goes out to all the boys
And all the girls in the whole world
You don't have to worry, you don't doubt
We not goin' to sell out, no

I'm not shy, forgive me
So please don't cry
Forgive me if you can't handle this
Forgive me, forgive me, forgive me

And if it's too raw, forgive me
That's my faux faux
Forgive me if you can't handle this
Forgive me, forgive me, forgive me

This is classical, inter-outa-international
World-wide, televised, dramitised
Yo, unu just cyan't standadize
Ya understand, over-stand, over-land, over-seas
Only god alone over me
