[Verse 1]

Woke up this morning 10 o'clock or so B2K is on my  
radio

And my head still hurting from late last night  
Cuz my shorty did my braids too tight  
Hop out the shower, throw my sweat suit on  
Lace my Tim's grab my sidekick phone  
Look out the window all the clouds are gone  
So I call my boys it's time to get it on

[B-Section]

Right now the mood is so right  
My game, my life so tight  
We do whatever we like  
This is for the radio

[Hook]

This is for the radio  
This is for the whips with the chrome 2-0's

This is for the shortys walking down the street  
In them low rider jeans hot like oh

This is for the radio  
This one goes out to the G's on lock and six below  
To everyone holding it down  
This one's for you

[Verse 2]

Out on the street everything is cool  
Nobody tripping or acting a fool  
There's Bar-B-Qs, dominoes  
It's all good, up in the hood  
We turn around and roll uptown  
It doesn't matter that the sun is going down  
We turn around and do the  
same thing that we did on yesterday
