

## Jarvis Church "That Old Love Song"

Visit "[That Old Love Song](#)" on MotoLyrics.com

There's something in my heart I must confess  
I'm not worth of this happiness no  
'Cause there's a love song that can make a woman  
fall in love  
A love song that can give a man what he's been  
dreamin' of

And when I put it on, that old love song  
I know I will have you forever I can do no wrong  
But hey, it's just an illusion  
Oh baby I don't know what I'm doing  
I'm sorry but you  
You're the one I've been foolin'

I'm just an ordinary man  
Just a face in a crowd, just a little grain of sand  
But when I hear this love song, I can be who ever I  
wanna be  
With this love song I can win your heart so easily  
And when I put it on, that old love song  
I know I will love you forever I will do no wrong  
But hey, it's just an illusion  
Oh baby I don't know what I'm doing  
I'm scared it's you  
It's you that I'm loosing

But this love song doesn't have to be pretend  
This love song right here is genuine  
This love song never, never, never has to end

And when I put it on, that old love song  
I know, I know, I know I can't go wrong  
But hey, it's just an illusion  
Oh baby I don't know what I'm doing  
I know it's you  
You're the one I've been foolin'  
But hey it's just an illusion
