I couldn't regret I wouldn't forget
The brighter world she once showed me
(The way she moved me)
Together alone in a broken home
We gotta leave this place before we turn to stone

Memories that I carry inside
Rainy feelings that I just can't deny
I'm not gonna dream forever and ever

Somebody lied on a wedding night
Repressing a secrete deep inside

Chorus:
Memories that I carry inside
Rainy feelings that I just can't deny
I'm gonna dream forever and ever
Magic voices from far away
Keep me going and help me find the way
I'm not gonna dream forever and ever

I've been hiding in the shadows much too long
(I'm walking away I'm walking)
I've been holding back the feelings that's grown so
strong
(I'm walking away I'm walking)

Chorus:
Memories that I carry inside
Rainy feelings that I just can't deny
I'm gonna dream forever and ever
Magic voices from far away
Keep me going and help me find the way
I'm not gonna dream forever and ever

(I'm walking away) I'm walking away
(I'm walking away) I'm walking away
