Was it good
Did I behave like I should
Was it fine
The way we chose to spend our time
Knowing You
Has been an everlasting thrill
And I love you still

Strong is life
And really hard to sacrifice
This world of mine
Though it has been rough sometimes
Evil Words
I said when I was really mad
Weren't meant so bad

Chorus:
Walk with me
Just turn around and let it be
I have come to guide you all the way
Walk with me
'Cos I have got the key
That finally sets you free

Time reversed
They're calling from the universe
A world unknown
I'll have to travel all alone
Left behind
Is an echo of my mind
For anyone to find

Chrous:
Walk with me
Just turn around and let it be
I have come to guide you all the way
Walk with me
'Cos I have got the key
That finally sets you free
