If you need a place to stay
To get away from yesterday
A shoulder you can cry on through the night
Let me be the helping friend
To get you on your feet again
Until the clouds have rolled on by

You dwell on the memories
Scared that you'll never be on your way
But soon you'll be keen to carry on

Chorus:
When everything leads you astray and you must face a
Rainy day
If you give in without a fight you travel lighter
'Cause every bridge that you burn and every lesson
that
You learn
Is only a trick to make you wise so you don't mind
Some things were meant to leave behind

If you lack a master plan
To get a grip and understand
What the hell it's all about

We all feel inadequate
That's just a part of it
Of being here
We do like to think we make a difference

Chorus:
When everything leads you astray and you must face a
Rainy day
If you give in without a fight you travel lighter
'Cause every bridge that you burn and every lesson
that
You learn
Is only a trick to make you wise so you don't mind
Some things were meant to leave behind

And it's a lifelong conversation
That keeps this mystery alive

Outro:
Don't you worry
There's no hurry
You will be fine
