Zapping the news
Reality's a bomb without a fuse
But we still sing the blues

In the highest gear
We don't wanna know the things we fear
Ego tripping our career

Time to run time to flee
Getting high on ecstasy

Chorus:
There is a world that cries
While everybody's dancing
There is a globe that dies
But no one seems to care

Day after day
Try to save the world when we pray
But we do all betray

Chorus:
There is a world that cries
While everybody's dancing
There is a globe that dies
But no one seems to care
What are we aiming for
While everybody's trancing
There is a dirty war
Knocking on your door
