it's a quiet day  
where evreyone is inside  
inside away from it pouring down  
onto em

i thought raining was nice  
and sitting out there watching it pourrr  
it's nothing like ice on the ground  
i tell you it;s just water cold water falling from the sky  
it's so quiet today  
wonder why!??  
it;s never usealy quiet  
it's nosey  
you see people wlaking around talking none stop

the ground is so hot  
the rain is so cold  
wonder why  
wonder why  
the rain is cold  
and the grownd is hot  
i wonder why the sun is yellow and so hot?

ohhh i wonder why !  
wonder ooo why  
wonder sometimes if there was no sun  
what we do?"
