"My World"

Visit "[My World](#)" on MotoLyrics.com

seeing you everyday
without so much
it's not fear to me
my mind thinks your and innocent child
person whatever just trying to make so much sense
i'm trying so hard

my world my place
is so small
i need my space
need room to breath
looking into my future see nothing

my talk my say
is so untrue
my thoughts
are so unbelievable

my life my world
my world can we change
our world
can we exchange my body

can i stop feeling like i lost
can i just feel strong
please my life is perfect
school like
dosen't matter
it's over so fast
you wouldn't believe it

but it's true
my world is true
and so are you..
